### PRODUCT DESCRIPTION

Five highly efficient red tube, cast iron burners create a large heat-transfer area for reliable, even heat distribution. Our durable temperature probe senses temperature changes and activates a quick burner response.

The temperature for the DCF5-LPG/DCF5-NG from 200°F (93°C) to 400°F (204°C). Includes Millivolt safety control system.

Every inch of the frypot and cold zone can be cleaned and wiped down by hand.

The large cold zone and forward sloping bottom help collect and remove sediment from the frypot to safeguard oil quality and support routine frypot cleaning.
